

**W**e provide permanent microchip identification for all of our adults and puppies.

Your new puppy comes to you already fitted with a tiny harmless microchip that will stay safely in place for life, offering protection from loss, theft or separation due to natural or personal disaster. The microchip number is unique and belongs only to your puppy.

You and your puppy will be enrolled in PETtrac™, the largest private 24 hour pet recovery network in the United States. We handle the entire process! We can even include your veterinarian's information and an alternate contact of choice.

Shelters, vets, and rescue teams scan for microchips. If ever lost, your puppy can find his way home to you when his number is scanned and PETtrac is alerted. Operators are standing by 24 hours a day to help reunite you and your pet. PETtrac manages over 1000 calls each day and has helped thousands of lost pets get back home.

***We are proud to offer you this service as part our Standard of Care.***
